

Christopher Aytona

Data Analyst & Automation Developer

Toronto, ON, Canada | (289) 200-6079 | christopher.aytona@gmail.com | linkedin.com/in/christopheraytona | github.com/aytona

Operations leader with 14+ years of progressive leadership experience spanning data analytics, software development, and fulfillment center operations. Currently a Data and Reporting Analyst at Amazon, owning site-wide ETL pipelines, QuickSight dashboards, and quality KPIs that drove #1 network ranking. Previously led engineering teams at multiple startups, managed full product lifecycles, and currently runs an indie game studio as CEO. Combines deep technical skills (Python, SQL, AWS) with proven people management, cross-functional coordination, and operational excellence.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, VBA, C#

Databases: Amazon Redshift, MySQL, DynamoDB

Frameworks: pandas, selenium, boto3, Flask, Playwright

Tools: QuickSight, Excel, Slack API, Git, AWS

(Lambda, S3, CloudWatch, CDK), Unity Engine

Methods: Agile, Lean, Six Sigma principles, ETL design, Scrum

PROFESSIONAL EXPERIENCE

Data and Reporting Analyst (L4)

Sep 2023 - Present

Amazon — Kingston, ON

- Owned Quality KPI performance as site-level SME, supporting #1 network Quality ranking and sustained Top 5 performance
- Built 36+ automated ETL data pipelines monitoring defect rates, missorts, aged inventory, and labour metrics
- Designed Python/VBA automation tools and QuickSight dashboards improving operational visibility across 4 departments
- Created 13 Slack webhook integrations delivering 300+ automated outputs per week to cross-functional teams
- Drove real-time escalation handling and RCA to resolve shift-critical issues impacting customer delivery
- Designed inbound high-risk ASIN flagging system (IHRA) scoped across 32 AMXL FCs network-wide

Process Assistant (L3)

Jan 2023 - Sep 2023

Amazon — Ajax, ON

- Led shift operations managing 30+ hourly associates to meet delivery and quality SLAs
- Owned floor execution including labour allocation, rate monitoring, and real-time problem solving
- Coordinated cross-functional handoffs between Inbound, Outbound, and ICQA departments
- Drove safety compliance and quality standards on the floor during peak volume periods

Fulfillment Associate (L1)

Sep 2021 - Jan 2023

Amazon — Ajax, ON

- Consistently exceeded rate targets across multiple paths (pick, stow, pack)
- Cross-trained across departments; selected for PA promotion within 16 months

Managing Director / CEO (Side Venture)

Jan 2025 - Present

TapOrbit Studios — Toronto, ON

- Founded and operate indie game studio managing team members, project timelines, and business finances
- Oversee product roadmap, hiring decisions, and go-to-market strategy
- Step into development (Unity/C#) when needed to unblock technical work

Software Developer

Sep 2018 - Oct 2019

Treasured — Markham, ON

- Researched and developed VR/AR virtual world functionality using Oculus and Magic Leap platforms
- Worked closely with CTO on R&D direction while leading team execution and task delegation
- Built interactive experiences for a SaaS product creating memorial virtual worlds for bereaved families

Game Developer (Team Lead)

Oct 2016 - Jan 2018

Transhumanoid Productions — Remote (Worldwide team)

- Led UI development and custom dialog tree system for AA-scope game project (hundreds of thousands \$ budget)
- Managed distributed worldwide team — delegating tasks, tracking progress, reporting to CTO
- Owned Git-based project management and version control workflows for the team
- Developed in Unity Engine with focus on UI functionality and narrative systems

Game Developer (Engineering Lead)

Sep 2014 - Oct 2017

Ruckus Games — Toronto, ON

- Led entire engineering/development department at startup, reporting directly to CEO
- Owned end-to-end game development: mechanics, algorithms, level design, monetization strategy
- Developed prototype games in Unity Engine pitched and sold to local companies
- Managed project delivery through GitHub including code reviews and release coordination
- Started role while still in school; grew into full engineering ownership

Peer Tutor (Senior/Team Lead)

Sep 2014 - May 2017

George Brown College — Toronto, ON

- Mentored fellow students in programming, math, and game development coursework
- Served as go-to resource and informal team lead among peer tutoring staff
- Developed communication and teaching skills translating complex technical concepts

Data Entry Clerk (Senior/Team Lead)

Jul 2011 - Sep 2014

MPAC (Municipal Property Assessment Corporation) — Toronto, ON

- Processed and validated property assessment data with high accuracy over 3+ years
- Became go-to resource and informal team lead among peers at same level
- First professional role establishing foundation in data handling and attention to detail

EDUCATION

Bachelor of Computer Science — Ontario Tech University, 2021

Advanced Diploma in Game Programming — George Brown College, 2017 — Graduate with Honours | Dean's List | Student Representative | Leadership Academy
